All:

Art Zimmerman faxed over the omnibus tribal gaming motion. I went through it and attempted to identify each attorney's items. Please let me know if I have incorrectly assigned you an item. I don't know if all will require drafting.

Thanks,

Joy

P.S Please draft as separate amendments.

Representative Gard
Senator Decker

TRIBAL GAMING REVENUE ALLOCATIONS

Motion:

Move to approve the Governor's recommendations contained in the Fiscal Bureau Papers # 167 through #183 with the following modifications:

PJK
1. LFB Paper #167. Alternatives 2a, b, c and d. Provide nonstatutory language clarifying that the unencumbered balances in the applicable appropriations on June 30, 2001, would revert to the Indian gaming receipts appropriation in 2001-02 on the effective date of the bill. Provide that any unencumbered balance on June 30 of each year in the annual appropriation for Forward Wisconsin, Inc., business recruitment, be required to revert to the Indian gaming receipts appropriation. Convert two continuing appropriations to biennial appropriations, subject to the reversion of unencumbered balances provision for biennial appropriations under the bill (the Commerce appropriation for the Physician Loan Assistance Program and the Tourism marketing appropriation). Provide that the DHFS allocation for state match of certain medical assistance-funded activities be transferred to a new biennial appropriation for this purpose, subject to the reversion of unencumbered balances provision for biennial appropriations under the bill, and modify the Indian gaming receipts appropriation language that allocates this funding to DHFS to reflect this change.

RK on
GMM?
2. LFB Paper #168. Alternative 2. Place \$500,000 annually in the PR appropriation of the Joint Committee on Finance to be transferred under s. 13.10 to the management assistance grant program appropriation upon request by DOA and a finding that a county has met the eligibility criteria of the grant program.

M&D
3. LFB Paper #169. Alternative A3. Maintain current law, which would: (a) provide \$63,600 PR and 1.0 PR position annually and maintain the cooperative county-tribal law enforcement program in DOJ; (c) maintain OJA's county law enforcement services grant program; and (d) maintain OJA's tribal law enforcement assistance program. In addition, technically correct the county law enforcement services appropriation funding source designation. (Funding would remain at \$708,400 annually for county-tribal grants under DOJ, \$250,000 annually for OJA's county grant program and \$1,050,000 annually for OJA's tribal grant program.)

MJL?
ZAC?
4. LFB Paper #172. Alternatives 2 and 3. Modify the Governor's recommendation by

increasing the 1999 Act 9 project enumeration by \$350,000 and authorizing an additional \$350,000 in program revenue supported general obligation bonding for the purchase of movable equipment for the aquaculture facility. Debt service on the bonds would be paid with tribal gaming revenues beginning in 2003-04. Modify the Governor's recommendation by deleting \$50,000 and 1.0 position in 2002-03. The remaining funding would provide \$80,000 for an aquaculture facility director based at UW-Superior starting in 2002-03 as well as \$170,000 that could be used for movable equipment or other facility costs.

RCT
5. LFB Paper #173. Alternative 4. Maintain current law (funding for agricultural development and diversification grants would remain at \$400,000 GPR annually).

RJK
6. LFB Paper #174. Modify the gaming economic development and diversification grant and loan programs as follows: (a) consolidate, into one biennial program revenue appropriation, both the gaming economic development and economic diversification grant and loan programs and create a consolidated program revenue biennial repayments appropriation for both programs; (b) reduce funding for the combined economic development and diversification appropriation by \$2,750,000 PR in 2001-02 and \$1,750,000 in 2002-03; (c) beginning in 2001-02, transfer annual funding of \$170,700 and 1.0 gaming grants specialist position and supplies from the gaming economic development grants and loans appropriation to the Department's Native American Liaison appropriation; (d) provide that economic diversification grants and loans could be used for brownfields remediation projects; (e) expand the definition of a business that would be qualified to receive gaming economic development and diversification grants and loans to specifically include start-up businesses; and (f) authorize Commerce to make a gaming economic development grant of up to \$1,000,000 to the M7 Development Corporation for constructing a multipurpose center at Lincoln Park in the City of Milwaukee (no matching funds would be required). In addition Commerce would be required to allocate \$500,000 a year from the gaming economic development and diversification program for Oneida Small Business Inc. and Project 2000 to provide grants and loans for businesses located in counties in which the Oneida reservation is located or an adjacent county. Authorize grants and loans to be made to businesses that are: (a) start up; (b) small business as defined for the Rural Economic Development program or (c) owned by an Oneida tribal member.

RJK
7. LFB Paper #175. Create a separate program revenue appropriation for the manufacturing extension center grant program and provide \$500,000 PR annually in tribal gaming revenues to fund the program. (The program would no longer be funded through WDF appropriations.) The grant program's sunset date of June 30, 2001, would be repealed. Create a separate program revenue appropriation for the business employees' skills training grant program (BEST) and provide \$150,000 PR annually in tribal gaming revenues to fund the program. Further, adopt alternative C3 to maintain current funding levels for the Wisconsin Development Fund.

RJK
8. LFB Paper #177. Alternative 3. Maintain current law (funding for Forward Wisconsin would remain at \$500,000 GPR annually).

DAK
9. LFB Paper #178. Approve the Governor's recommendation and, in addition, expand the current health care provider grant and loan program to include dental hygienists and authorize Commerce to repay up to \$25,000 in educational loans over three years. Provide \$10,000 PR in 2001-02 and \$20,000 PR in tribal gaming revenue in 2002-03 to fund loan repayments for dental hygienists.

MGG/
RNK
10. LFB Paper #179. Alternative 4. Delete the Governor's recommendation (to provide \$166,000 PR in 2001-02 and \$157,900 in 20002-03) and, in addition, delete \$100,000 SEG annually from the fish and wildlife account of the conservation fund to delete base funding for the Deer 2000 initiative.

MGG/
RNK
11. LFB Paper #180. Delete \$100,000 PR annually in tribal gaming revenues for elk herd monitoring, management and reintroduction efforts. Instead, provide \$100,000 in fish and wildlife SEG annually. [Total funding for elk reintroduction would be \$200,600 annually (\$100,600 PR with 0.5 position and \$100,000 SEG).]

MGG/
RNK
12. LFB Paper #181. Alternative A2 to maintain current law maximum reimbursement levels for eligible local recreational vehicle enforcement costs. Further, provide \$520,000 annually (\$200,000 snowmobile SEG, \$20,000 ATV SEG, and \$300,000 boating SEG from the conservation fund) to increase available aid for county and municipal enforcement efforts. (This would allow DNR to fund at least 80% of eligible reimbursement costs for local snowmobile enforcement efforts, 82% of ATV enforcement efforts, and up to 75% of eligible boating enforcement expenses.) [The \$100,000 annually in tribal gaming revenue for snowmobile enforcement under the bill would be deleted.]

ISR/RCT?
13. LFB Paper #183. Transfer \$500,000 in 2001-02 and \$1,000,000 in 2002-03 in tribal gaming revenue to the environmental fund in the 2001-03 biennium only.

RCT
14. Delete \$120,000 PR annually from tribal gaming program revenues and related appropriation language to fund nonpoint grants and local assistance (staffing) to the Oneida Nation of Chippewa. (The Oneida Nation receives grants for nonpoint source pollution abatement projects in two priority watersheds. Grants are provided for local staff and supplies to administer the program and for landowner cost-shares to implement pollution prevention practices. Under the motion, grant funding would instead be allocated from the Departments of Natural Resources and Agriculture, Trade and Consumer Protection GPR and bonding authorizations.)

MGG/
RNK
15. Provide \$20,000 PR in 2001-02 and \$150,000 PR in 2002-03 only from tribal gaming revenues in an annual appropriation to the Department of Natural Resources to fund costs relating to the study and reintroduction of coaster brook trout.

RK MGG/
RNK
16. Move to provide \$31,300 PR in 2001-02 and \$41,800 PR in 2002-03 in a new, annual appropriation from tribal gaming revenues to provide law enforcement at the Kickapoo Valley Reserve.

GMM
17. Provide \$50,000 PR in 2001-02 to the Department of Workforce Development to fund a Trade Masters Pilot Program that would recognize advanced training and post-apprenticeship achievements in three trades, crafts or businesses one of which would be the industrial sector, one in the construction sector, one in the service sector of the economy. Require the Department of Workforce Development, by July 1, 2010, to submit an evaluation of the effectiveness of the pilot program to the Legislature.

RCT
18. Provide \$500,000 in each of 2001-02 and 2002-03 as a one-time grant to the Town of Swiss in Burnett County and the St. Croix Band of Chippewa for design, engineering and construction of wastewater and drinking water treatment facilities.

RCT
19. Provide \$30,000 PR annually in tribal gaming revenues to DNR for a study of crop damage caused by cranes. Funding would be one-time in the 2001-03 biennium only.

MGR
RNR
20. Provide \$10,000 PR in 2001-02 to DNR for a grant to the Wisconsin Conservation Hall of Fame.

RCT
21. Provide \$100,000 PR annually from tribal gaming revenues to the University of Wisconsin-Extension for the multi-agency land and water education grant program for grants to producers interested in grazing and nutrient management. Create an annual appropriation under UW-Extension for this purpose with reversion of unencumbered balance provisions consistent with other tribal gaming revenue appropriations. Prohibit the encumbrance of funds from this appropriation after June 30, 2006.

Grants would be awarded on a competitive basis for innovative educational or conservation practice assessment programs targeted at agricultural producers in the state. Applicants could include, but would not be limited to: (a) conservation districts; (b) state agriculture and natural resource agencies; (c) the Natural Resource Conservation Service; (d) University of Wisconsin; (e) nonprofit organizations; and (f) geographic management unit partner teams.

A project manager could submit multiple proposals but, at most, one proposal per project manager, per funding category, could receive funding during any grant selection cycle.

To be eligible for funding, programs would be required to emphasize education at the local level, focusing on either county, regional or statewide natural resource concerns. Programs would be required to further at least one of the following goals: (a) help agricultural producers identify and understand their natural resource and environmental conditions; or (b) plan, design, implement, operate or maintain conservation practices on agricultural land.

Preference would be given to programs that focus the majority of their educational efforts on the USDA Environmental Quality Incentives Program (EQIP) priority areas. Preference would also be given to programs that target traditionally under-served audiences such as Native American, African American, Asian American, Amish, women or low-income farmers. UW-Extension would establish maximum grant amounts depending on the quantity and content of the proposals and

applications received.

PG 22. Provide \$50,000 PR in 2001-02 for a special counselor grant program. Create an annual appropriation under the Department of Public Instruction (DPI) for this purpose with reversion of unencumbered balance provisions consistent with other tribal gaming revenue appropriations. Require the Department to award grants to entities that serve or border on a reservation, including school boards, boards of control of cooperative educational service agencies, or consortia consisting of at least two educational agencies, or an educational organization. These grants could be used for the cost of employing special counselors to help American Indian pupils adjust to their school districts. Reduce funding for general school aids by \$16,700 GPR in 2001-02 in order to adjust two-thirds funding of partial school revenues.

MSJ 23. Provide \$250,000 PR in each year of the biennium to the Department of Administration to fund programs at the UW-Green Bay which have been jointly developed by the Oneida Tribe and the UW-Green Bay.

MSJ 24. Provide \$15,000 PR in 2001-02 to the State Historical Society to fund costs related to identifying unmarked American Indian gravesites at the Power's Bluff County Park in Wood County.

MSJ 25. Provide \$25,000 PR in 2001-02 to the State Historical Society to provide funding to the Merrill Historical Society for the publication of a native tribal history of the upper Wisconsin river valley.

DAK/ISR 26. Provide \$250,000 PR annually to fund minority health programs. Specify that this funding would include: (a) a grant of up to \$50,000 PR annually for a private nonprofit corporation to conduct a public information campaign on minority health; and (b) \$200,000 PR annually for grants of up to \$50,000 for minority health programs. Modify the grant program to require recipients to provide a match, which may be provided as in-kind services, totaling at least 50% of the amount of the grant awarded by the state. In addition, provide that organizations that are not federally qualified health centers would receive priority for grants.

DAK/ISR 27. Delete \$250,000 PR annually and eliminate the compulsive gambling awareness campaign grant program administered by the Department of Health and Family Services.

ISR 28. Provide \$100,000 PR annually to the Department of Veterans Affairs to fund operational costs related to the Wisconsin Veterans Museum and create a new appropriation for this purpose funded from tribal gaming revenues. Delete \$100,000 SEG annually for the operation of Wisconsin Veterans Museum.

Note:

[Change to Bill: -\$1,913,600 PR and -\$16,700 GPR and -\$200,000 SEG]

Joint Committee on Finance

Paper #172

Tribal Gaming Revenue Allocations

Aquaculture Demonstration Facility (UW System)

[LFB 2001-03 Budget Summary: Page 690, #29]

CURRENT LAW

Construction of the Aquaculture Demonstration Facility was approved under 1999 Act 9 along with two new, annual PR appropriations under the UW System, one for principal repayment and interest of construction costs and the other for operational costs. The PR funding for the UW appropriations is derived from tribal gaming revenues.

GOVERNOR

Provide \$300,000 PR and 2.0 positions beginning in 2002-03 for operations and maintenance of the UW aquaculture demonstration facility. Because the facility is not expected to open until the end of the 2002-03 fiscal year, funding is provided only for initial staffing and supplies expenses related to the establishment of the facility and would come from Indian gaming revenues.

DISCUSSION POINTS

1. According to the UW, the mission of the aquaculture facility is to promote and advance the development of commercial aquaculture in a northern climate, with specific emphasis on the state of Wisconsin. At the facility, workshops would be offered for potential aquaculturists, internships would be available for students from area technical colleges and universities, advanced workshops/seminars on new techniques and technologies would be designed for experienced members of the aquaculture industry, and applied research projects would be designed and

conducted based on problems posed by the industry.

2. Of the \$300,000 provided in the bill for UW aquaculture demonstration facility, \$130,000 would support the cost of salaries and fringe benefits for the 2.0 FTE staff positions starting in 2002-03. The salary and fringe benefits allocation would support an executive director and a program assistant. In addition, \$170,000 would be available for supplies and services; these funds could also be used for permanent property needed for the establishment of the facility.

3. Under 1999 Act 9, the UW Board of Regents was authorized \$3,000,000 in program revenue supported borrowing to build a full-scale aquaculture demonstration facility. In addition, two new, annual PR appropriations were created under the UW System for the payment of principal and interest costs incurred in financing the construction of the facility for the operational costs of the facility. The PR funding for the UW appropriations would be derived from tribal gaming revenues and would be transferred to the new UW appropriations from two appropriations created for this purpose under the Department of Administration. The use of tribal gaming revenue for the operating and construction costs was authorized for the aquaculture facility based on the original Building Commission recommendation because of the relationship of fishing to the traditional economic basis of Native American tribes.

4. The original proposal for the development of the aquaculture demonstration facility grew out of a study by the Ashland Area Development Corporation. Based on the plan, the Governor requested, and the Legislature approved, \$3,000,000 for the construction of the facility in the Ashland area and assigned oversight to the UW System. The UW System President has designated UW-Superior as the institution to administer the development of this project, in consultation with the other UW institutions, representatives of the aquaculture industry and representatives of other state and federal entities. A steering committee, consisting of representatives from UW-Superior, UW-Milwaukee Water Institute, UW-Extension, Wisconsin Sea Grant Institute, Wisconsin DNR, Wisconsin DATCP, City of Ashland, Lac du Flambeau Tribal Natural Resources, Bureau of Indian Affairs and the Wisconsin aquaculture industry, has been assembled to coordinate planning and development of the facility and its programming.

5. A site for the new facility was selected in March 2001, and the design and planning phase of the project has begun. The aquaculture facility would be located in Red Cliff, adjacent to the Red Cliff Indian Reservation in Bayfield County. Since the Department of Facilities Development (DFD) does not expect the aquaculture facility to be completed until the end of the 2002-03 fiscal year, the Governor's budget only provides partial funding for the operating expenses. If the center was not completed and the requested positions remained vacant during 2002-03, the funds would likely lapse.

6. According to executive budget staff, the funding provided in the budget would be sufficient to get staff in place to organize the completion and opening of the facility. In addition, the facility staff would be able to identify and secure grant funding for research and equipment expenditures prior to completion of the facility. The bill would only provide partial operating funding for the facility, so if federal grants were unavailable, the UW System would need to request

additional funding for ongoing operations or fund operations through a base reallocation in the 2003-05 biennium. The UW System projects that ongoing costs for the aquaculture facility would cost approximately \$1.1 million annually for facility staff and operating costs.

7. According to UW-Superior and the aquaculture steering committee, start-up costs for movable equipment needed for the research and day-to-day operations of the aquaculture facility would cost an estimated \$634,600. Movable equipment needed for the facility includes re-circulating tanks, hatching bins, monitoring equipment, computers and a water heat exchanger. The Act 9 project enumeration and bonding excluded funding for movable equipment and the Governor's proposal would not fund all of the equipment that, according to the UW, would be essential for operating the facility.

8. The Committee could increase the Act 9 project enumeration by \$350,000 and authorize \$350,000 of PR supported general obligation authority for the aquaculture facility in order to fund movable equipment with a longer asset life. The additional bonding, if authorized, would be supported by tribal gaming revenues. The project architect has expressed a need to purchase and install equipment such as tanks, oxygen equipment, re-circulating systems, water chillers and a water heat exchanger while the building is being constructed in order to facilitate design and installation. The remaining equipment could be funded using the \$170,000 provided in the Governor's budget for supplies and services or funded in subsequent biennia once the facility has been completed.

9. Given that the facility would not be completed until the fall, 2002, or spring, 2003, the Committee could decide not to fully fund the facility's operating costs and salaries during the 2001-03 biennium. Instead, the Committee could provide \$80,000 and 1.0 position in 2002-03 for a facility director that would be based at UW-Superior until the project is completed as well as \$170,000 in supplies and services funding for movable equipment or other costs. According to DFD and UW staff, a facility director hired prior to completion of construction would help the design team tailor the project to the users needs. The facility director could coordinate with researchers and employees at UW-Superior and other participating agencies to assist in the design phase of the facility and identify federal funding and grants for future research and operations at the aquaculture facility.

10. While the Board of Regents must first approve all construction projects proposed by the campuses, the Board does not require campuses to estimate the operating and maintenance costs associated with a new building or to indicate how such costs would be funded. In general, however, UW institutions are expected to pay for operating and maintenance costs associated with new buildings through base reallocations. One could argue that the Governor's proposal to separately fund the operating and maintenance costs for this particular facility could set a precedent for other campuses to request funding for similar purposes. However, it could be argued that it would be unreasonable to require UW-Superior or other UW campuses to fund operational costs for this particular facility through a base funding reallocation.

ALTERNATIVES TO BILL

1. Approve Governor's recommendation to provide \$300,000 PR and 2.0 PR positions in 2002-03 for initial staffing and supplies expenses related to the establishment of an aquaculture demonstration facility.

2. Modify the Governor's recommendation by increasing the 1999 Act 9 project enumeration by \$350,000 and authorizing an additional \$350,000 in program revenue supported general obligation bonding for the purchase of movable equipment for the aquaculture facility. Debt service on the bonds would be paid with tribal gaming revenues beginning in 2003-04.

Alternative 2	PR
2001-03 FUNDING (Change to Bill)	\$350,000

3. Modify the Governor's recommendation by deleting \$50,000 and 1.0 position in 2002-03. The remaining funding would provide \$80,000 for an aquaculture facility director based at UW-Superior starting in 2002-03 as well as \$170,000 that could be used for movable equipment or other facility costs.

Alternative 3	PR
2001-03 FUNDING (Change to Bill)	- \$50,000
2002-03 POSITIONS (Change to Bill)	- 1.00

4. Maintain current law.

Alternative 4	PR
2001-03 FUNDING (Change to Bill)	- \$300,000
2002-03 POSITIONS (Change to Bill)	- 2.00

Subject: RE: Tribal Gaming Moneys

For those of you who are creating new appropriations for Indian gaming moneys: The moneys should revert back to s. 20.505 (8) (hm) at the end of the fiscal year for annual appropriations and at the end of the biennium for biennial appropriations. (see sections 421 and 451 of the budget bill for examples)

Also, when you add a subdivision paragraph to s. 20.505 (8) (hm), please use a number between 1. and 19. This will make reconciliation much easier.

OK, I think that's it.

Thanks,

Ivy

Date

John Stott:

Please note that because the governor's capital budget also increases the authorized bonding amount in s. 20.866 (2) (t), you may wish to make certain that the \$350,000 increase is not counted twice, both in this amendment and in any changes the joint committee on finance might make to the capital budget.
